

2020 VBS WEEK 1

Science & Craft Materials and Step by Step
Directions

WEEK 1: MUSTARD SEED

Grow your own “Chia” pet plant

MATERIALS FOR GRASS HEAD

Items Provided:

- knee high panty hose (only one of the pair)
- 1 cup of Perlite growing medium (in a baggie)
- A scoop of Bermuda grass seed (in the condiment container)
- Google eyes (one pair)

Items Needed:

- Permanent markers to use for decoration
- Scissors
- Empty water bottle

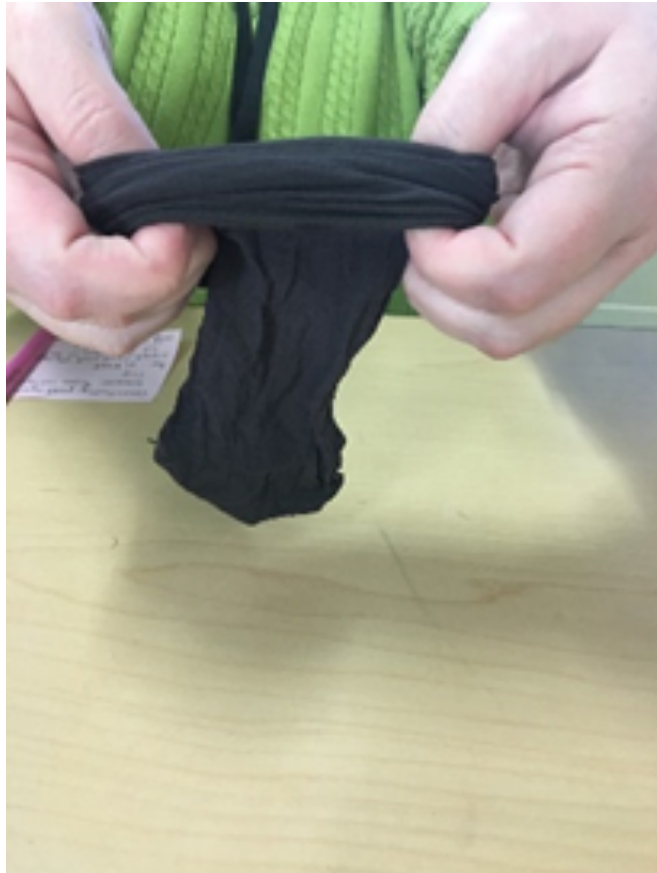

STEPS TO SET UP YOUR GRASS HEAD

1. Use scissors to cut top off of bottle and remove label.

2. Decorate the bottom portion with googly eyes and permanent marker to give your bottle a face.

3. Hold panty hose at top opening and with both hands pull up both sides at same time.

4. Put panty hose inside cup.

5. Add a spoonful of grass seed to pantyhose.
6. Add cupful of perlite to pantyhose.
7. Carefully pull full pantyhose off of cup. See photo.

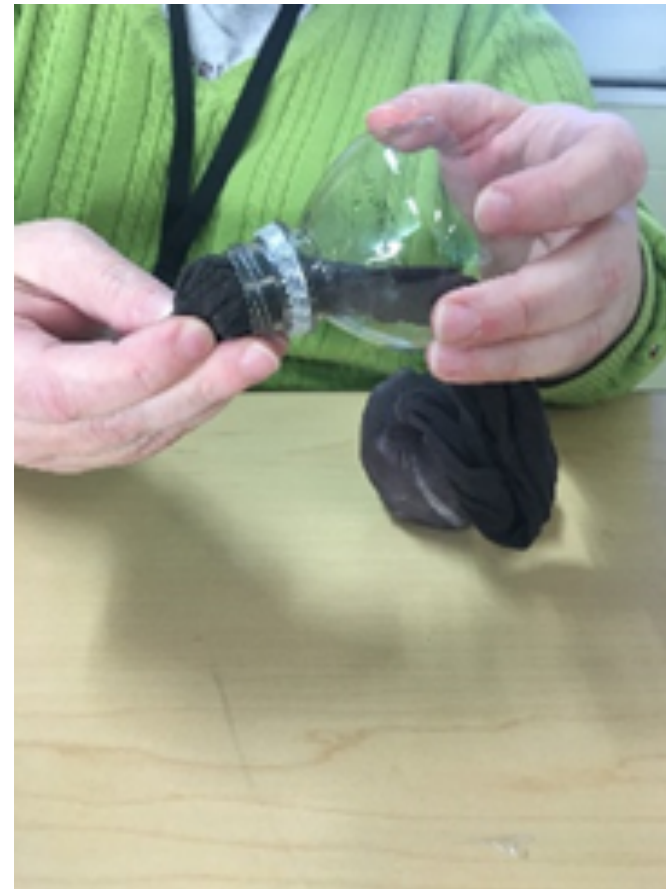

8. Make sure that all material in pantyhose is pushed toward the toe end of the pantyhose.

9. Tie a double knot in the leg portion of the pantyhose. See photo.

10. Invert lid and push/feed leg portion through mouth of bottle. See photo.

11. Pull leg portion all the way through mouth of bottle until toe end with materials is sitting in the top. See photo.

12. Hold the head portion under running water to soak it.

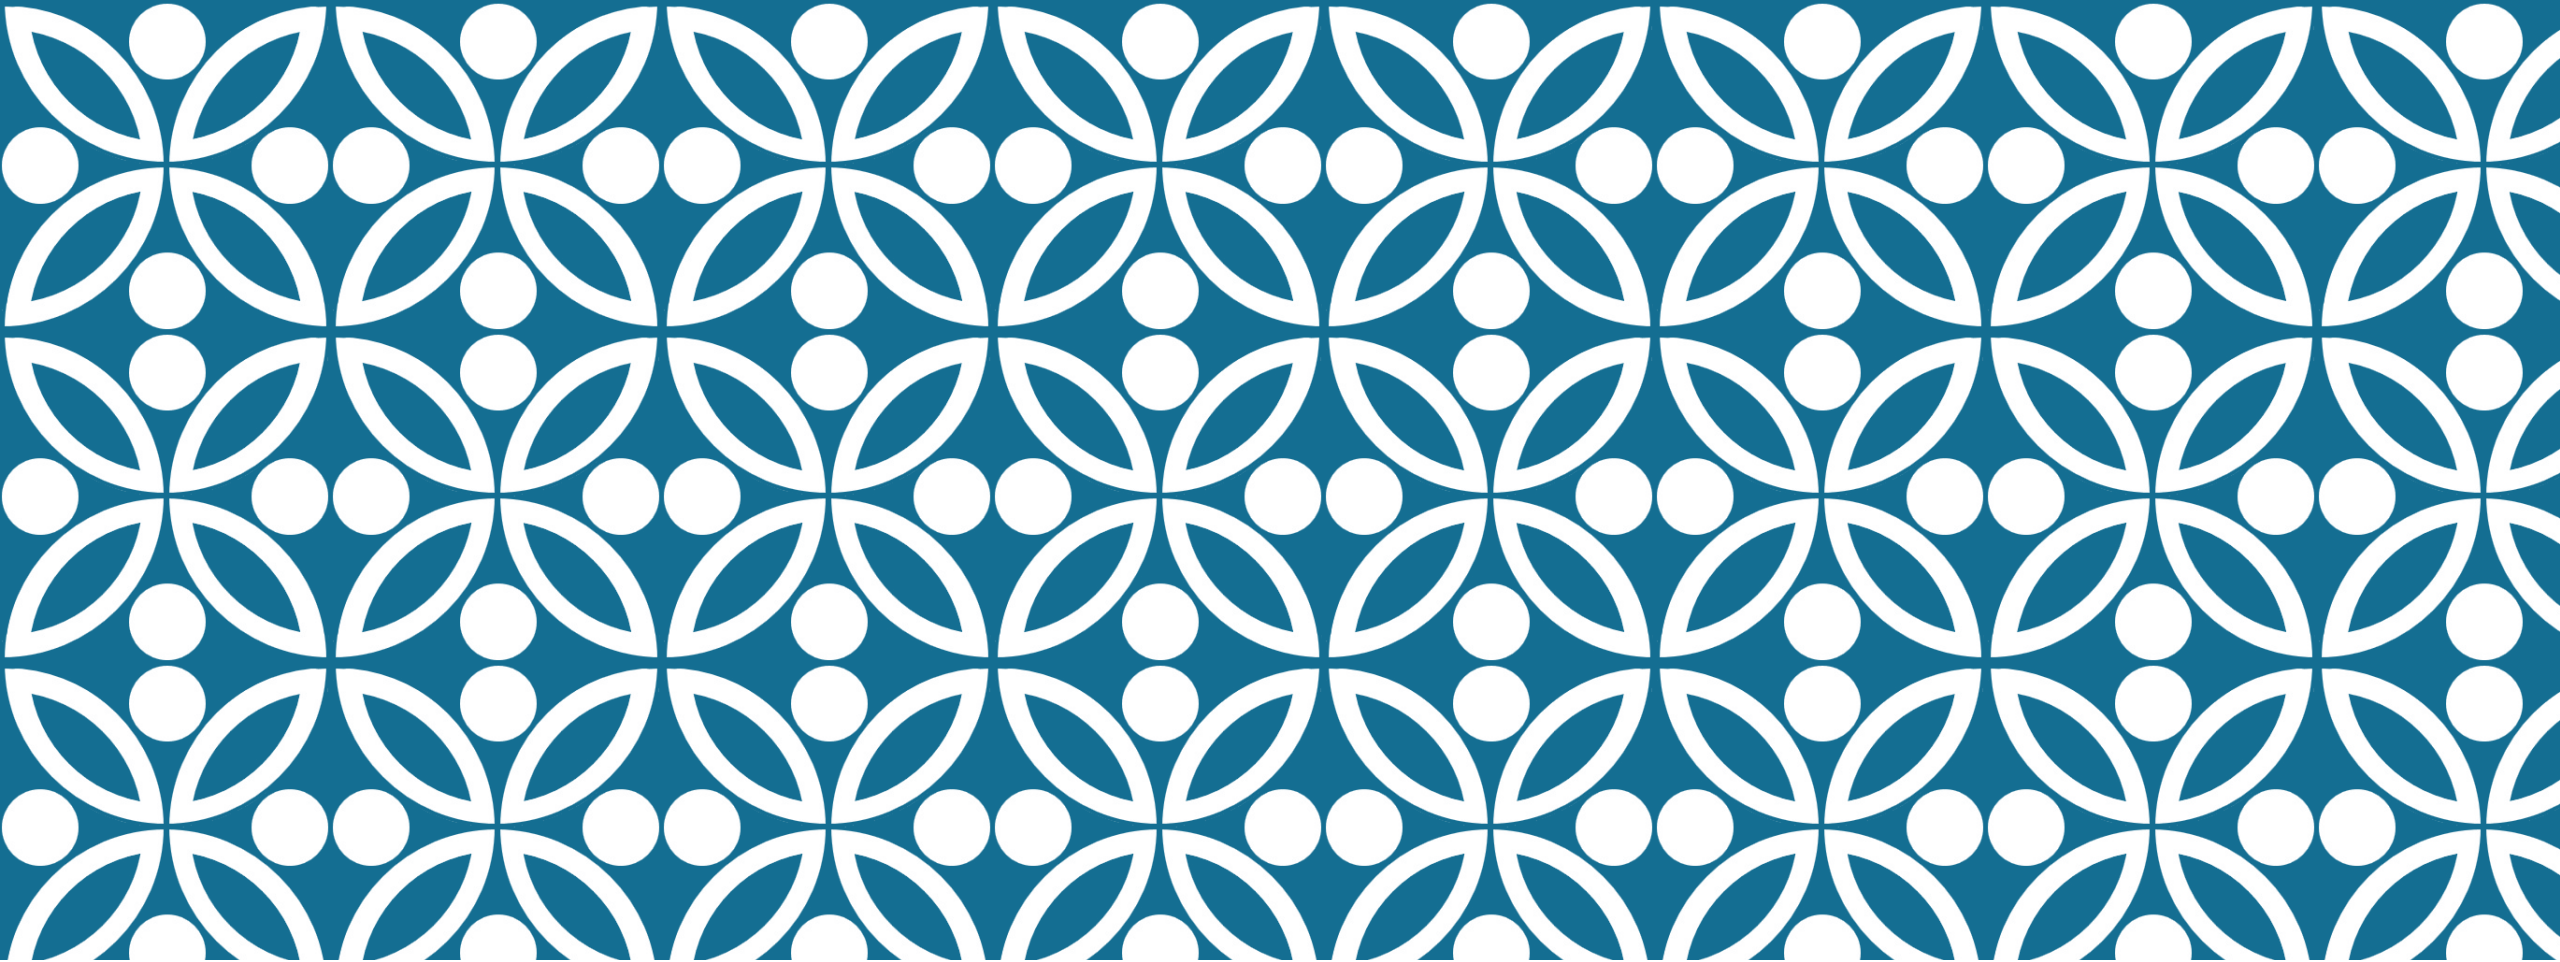

13. Add water to the base of bottle from closest sink.

14. Place sockhead in inverted top of bottle on top of base. See photo.

15. Put your grass head where it will receive sunlight. Remember to water the top and add water to the bottom every few days.
